

Hursley Parish Council – highways report May 2026

SLR data

We are now receiving the data in a format that is much easier to access and to understand. It is early days with this information in this new format. I will attempt to extract information from the data and highlight the finding. I have received the April data from 3 locations and can reports on the findings as below.

Location	<30	31-35	36-40	41-45	46+
IBM N incoming	77.9%	13.9%	5.6%	1.85%	0.75%
IBM N outgoing	39.6%	40.2%	15.5%	3.5%	1.2%

Date range: 29.3.26 – 11.4.26 Limit = 30mph

Incoming vehicles 31597 Outgoing vehicles 39443

Location	<30	31-35	36-40	41-45	46+
Golf course Pitt In	0%	0%	63.1%	24.4%	12.5%
Golf course Pitt out	0%	0%	54.4%	30.7%	14.9%

Date range: 29.3.26 – 4.4.26 Limit = 40 mph

Incoming vehicles 13808 Outgoing vehicles 15257

Location:	<30	31-35	36-40	41-45	46+
Port Lane In	99.25%	0.75%	0%	0%	0%
Port Lane Out	98.61%	1.39%	0%	0%	0%

Date Range: 29.3.26 – 11.4.26 Limit 30 mph

Incoming vehicles 795 Outgoing vehicles 432

Fix My Street/HCC website

All outstanding work reported via this portal has been dealt with or has received a reply. The white lines in Port Lane/Collins Lane has not been completed, but I received a reply stating that when replaced, they will be relocated further away from the edge as requested. I would urge others to either report any problems encountered on either the FixMyStreet or HCC websites, or to pass me the detail and I can do it.
